Dr. Joshua Lederberg  
Department of Genetics, S331  
Stanford University Medical Center  
Stanford, California 94305

Dear Dr. Lederberg:

I have now compiled the requested materials regarding Rand's potential work in AIM. I hope the committee will act favorably on them and that this is just the start of a lasting, significant cooperation between SUMEX-AIM and Rand.

I look forward to hearing from you.

Cordially,

*Frederick Hayes-Roth*
